SUMMARY

Dedicated and results-driven Software Developer with approx. 4 years of experience in backend development within telecom and banking. Proficient in Java8, Spring, and Spring Boot, specializing in scalable, stable systems. Recognized for strong leadership, problem-solving, and commitment to continuous learning. Adept at delivering defect-free features, improving efficiency through REST API integration, and maintaining adaptability in dynamic environments.

WORK EXPERIENCE

Software Developer | Amdocs Development Centre |

May-2022 - Till Date

- **Feature Development & Maintenance:** Utilized **Java 8 & RESTful APIs** to spearhead the development and maintenance of new features for customer management systems, ensuring seamless integration across multiple channels.
- **End-to-End Project Ownership:** Took full ownership of key functionalities, successfully delivering new features on time with zero defects, and maintaining stability in the existing system.
- **Production Support:** Provided critical production support for customer management applications by resolving issues promptly and minimizing downtime across various cross-functional applications.
- **Modular Code Implementation:** Introduced and implemented a **modular code structure**, emphasizing best practices and peer reviews, which significantly reduced production bugs and enhanced **code reusability**.

Software Engineer | Persistent Systems Ltd |

Jan-2021 – May-2022

- **API Development:** Developed robust APIs for a new account opening module using **Spring Framework and Spring Boot**, which reduced user drop-off rates by 25% and streamlined the onboarding process.
- **Process Automation:** Integrated **REST APIs** to automate the account opening process, reducing manual errors by 70%, which led to improved accuracy and operational efficiency.
- **Collaboration & Delivery:** Worked closely with cross-functional teams to understand new requirements of new feature development and ensured the timely delivery of high-quality features.
- **High-Cohesion Modules:** Developed various modules with a focus on high cohesion, which improved system maintainability and facilitated easier updates.
- **Object-Oriented Application Development:** Experience in developing Object-Oriented business applications using Spring and **MVC Architecture**

SKILLS

- **Technologies:** Java8, J2EE, Spring Framework, Rest API's, Spring Boot, Maven
- **Web technologies:** HTML5, CSS3 and Fundamentals of Java script.
- **Databases:** MySQL, Oracle 11g (Basic)
- **Tools:** STS, Eclipse, Visual Studio
- **Version Control:** Git, Perforce
- **Interpersonal:** Problem-solving, communication, self-motivated

ACHIEVEMENTS

- **Top Performer Award - Persistent Systems** Received the "Bravo Team Award" for outstanding performance during training, demonstrating exceptional technical skills and a strong ability to learn quickly.
- **Java Gold Badge – Hacker Rank:** Achieved a Gold Badge in Java, ranking among the top programmers on the platform and showcasing advanced problem-solving capabilities (https://www.hackerrank.com/Manali_chouhan)
- **Indian Engineering Olympiad - Gold Medalist:** Secured a Gold Medal for **academic excellence**, ranking among the top engineering students nationwide in the Indian Engineering Olympiad.

EDUCATION

Sushila Devi Bansal College of Technology

BE Honours Computer Science with Software Engineering Specialization | 8.43CGPA

Indore, MP

Sep'2020

CERTIFICATIONS

- Amdocs Certified Developer:
 - C1/C2 Certification in Java Development
 - C3/C4 Certification in Advanced Java Development
- SQL (Basic) Certification – Hacker Rank (<https://www.hackerrank.com/certificates/e0cba6814771>)
- Java Gold Badge – Hacker Rank
- SQL and HTML Fundamentals – SoloLearn
- Fundamentals of Data Structures
